20th November 2007

Dear Carl,

Again, congratulations on your superb magazine. Osvaldo Patrizzi is truly an amazing figure in the watch industry and I am so glad he writes for you as I closely follow his advice.

I guess it was good timing to see his article on Breguet's tourbillon as I am very much looking forward to putting it on my wrist when it is delivered. I always look forward to reading your magazine, and your watch coverage is truly the best of any publication I see.

Nice catching up in London and see you in Dubai!

Sincerely,

A handwritten signature in black ink, appearing to read "J-Claude", written over a horizontal line.
