## ACCOMMODATIONS

Jade Mountain was made for rest and rejuvenation, and in keeping with this philosophy, technology is minimal (though guests can request telephone service and Wi-fi at the front desk). Instead, the focus is on the sweeping spaces, soothing and stylish décor, and the private infinity pool or Jacuzzi available in each room, depending on your choice of accommodations. Guests can rest easy in the master bedrooms' plush, king-size canopy beds. All guest bathrooms provide a whirlpool "chroma-therapy" tub for two as well as state-of-the-art stainless steel shower units with handmade glass tile walls. Decadent touches like Molton Brown toiletries and fine Frette towels and bathrobes add to the spa-like experience. The resort's major domos, trained by the British Guild of Butlers, offer stellar service to all guests upon arrival, while an in-room electronic call button connects visitors to the front desk's service team at all times.

## TOP RESTAURANT

**JADE MOUNTAIN CLUB:** James Beard Award-winning Chef Allan Susser is the mastermind behind "Jade Cuisine," the resort's moniker for their signature style of fare: A blend of bold flavors, tropical cultures and the utmost in fresh ingredients, many of which are culled from an onsite organic garden. From modern fusion cuisine to classic comforts like the "best burger in the Caribbean," there's something on the menu to please every palate. Meals are complemented by an extensive beverage menu, which includes freshly squeezed fruit juices and exotic elixirs, chic cocktails, and a strong selection of local and international wines, stored in a high-tech, temperature-controlled wine cellar. For a truly above-and-beyond culinary experience, guests can partake in one of the chef's "A Spoonful of Paradise" classes, which include in-kitchen lessons as well as exclusive off-site field trips—such as a fishing excursion, spice tours and a hands-on chocolate making course.

## SPA

Anyone can unwind with the help of Jade Mountain's boutique spa, Kai en Ciel. With innovative packages like "The Ultimate 'Forget the Outside World' Treatment"—which lasts nearly two hours and includes a massage, face masque and reflexology treatment—the emphasis here is on banishing stress. From exotic therapies like a Chakra Balancing Massage to more traditional indulgences such as deluxe manicures and pedicures, there's a spa ritual to sooth every body. Many treatments are designed to be enjoyed from the comfort and privacy of one's own sanctuary, as desired.
